

Synergy^{ID}

Near-Infrared Fluorescence Imaging

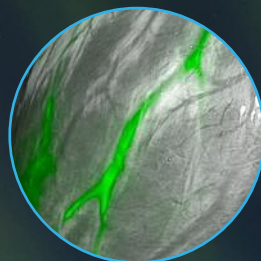

- Synergy^{ID} is a system that marries state-of-the-art 4K visualization with superior augmented reality features, such as fluorescence imaging, to see more than ever before
- Fully-integrated fluorescence imaging provides the ability to use near-infrared fluorescence imaging in different modes, in all procedures and at any time, right when you need it
 - Visualization of gastrointestinal perfusion
 - Visualization of biliary tree anatomy
 - Visualization of lymphatic system

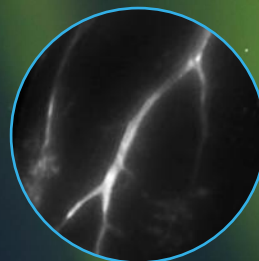

Standard visible light

Standard visible light
+ NIR* overlay

Grayscale visible light
+ NIR* overlay

NIR* only

* NIR = near-infrared
